CLIENTS CAPTURED IN PHOTOS

Under GDPR legislation, a photograph may in some instances constitute a form of personal data where they can be processed to allow "the unique identification or authentication of a natural person". Anna Hardy Photography will never photograph an individual as a means of unique identification or authentication unless consensually contracted to do so. Guests/attendees at events appear in photos taken by Anna Hardy Photography as a part of the visual recording of the event in photos. Guests/attendees captured in portraits or in group photos do so as part of the event and their rights are protected by Anna Hardy Photography as detailed in this privacy policy.

In terms of explicit GDPR compliance, clients and guests/attendees are photographed within the parameters of GDPR legislation on the basis of 'legitimate interests'. The taking of photographs of guests/attendees when viewed as a form of processing personal data is necessary for the legitimate interests of Anna Hardy Photography as a photography business unless there is a good reason to protect a given individual's personal data which overrides those legitimate interests.

Operating within the parameters of legitimate interests as laid out in GDPR legislation, the disproportionate effort involved in providing privacy policy information to all event guests at the event and the degree to which it would distract us from performing our job renders it infeasible to do. Clients are therefore requested to direct their guests/attendees to read this privacy policy in advance of the event and to advise them to contact us in advance with any concerns around the processing of their personal data, namely being photographed.

SOCIAL MEDIA POLICY & USAGE

We adopt a safe and responsible social media policy. While we may have official profiles on social media platforms, users are advised to verify the authenticity of such profiles before engaging with, or sharing information with, such profiles. We will never ask for personal details on social media platforms. Users are advised to conduct themselves appropriately when engaging with us on social media.
